**Stallion Service Contract – for Thoroughbred Mares**

I/We hereby agree to breed my/our mare:

Breed: \_\_\_\_\_  
Reg. No.: \_\_\_\_\_  
Sire: \_\_\_\_\_, Dam: \_\_\_\_\_

to the Stallion: **Troupea Ties** - registered Australian Thoroughbred ID No. **AUS00787226**

for the 2008/2009 season at a breeding service fee of: \$1,100 which includes a non refundable \$100 booking/ fee. (extra drug charges may apply if needed).

If required agistment is \$22/day (inc gst). All vet charges are payable to Kilmore Equine Clinic.

The Service Fee of \$1,100.00 is due on a 45 day positive pregnancy test.

Any other expenses will be paid prior to the mare being picked up from the stud.

1. The Mare Owner agrees that the Mare offered for breeding is in sound breeding condition and free from infection and disease. The Stallion Owner may have a veterinarian check and treat the mare for any abnormal breeding condition or disease with the expense charged to the Mare Owner.
2. The Stallion Owner reserves the right to refuse a mare offered for breeding for any reason prior to breeding. In this case the booking fee will be refunded in full.
3. In the case of any illness, condition, disease or injury, the Mare Owner agrees that a suitable course of treatment may be undertaken, in consultation with the Mare Owner, by a qualified veterinarian.
4. Diligent effort will be made to settle the mare, however, if for any reason she does not settle, the Stallion Owner (or his/her agent) will not be held liable.
5. The Stallion Owner guarantees a live foal, defined as one that stands and nurses the Mare, a substitute mare, or other nursing apparatus, within 24 hours of birth. If a live foal does not result from this mating, as evidenced by a veterinary certificate within one week of foaling, the Mare Owner is entitled to a return privilege in the next breeding season only, for the same Mare or a substitute approved by the Stallion Owner. Said veterinary certificate must set forth the events giving rise to the right to a return breeding and must further certify that the loss of a live foal was not due to the Mare Owner's neglect.
6. It is understood that the Stallion Owner, his/her employees, veterinarians, and agents shall not be liable for any injury, escape, or death of any horse presented to the Stallion for breeding. The Mare Owner agrees to hold the Stallion Owner his/her employees, veterinarians, and agents harmless for any damage or injury to any person, horse or property caused in whole or in part directly or indirectly by the Mare Owner's Mare and/or her foal.
7. It is agreed that if the mare dies or becomes unfit for breeding during the breeding season, the Mare Owner may substitute another mare to breed to the Stallion; subject to the breeding requirements and approval of the Stallion Owner.
8. If the Mare is sold or this breeding is not used by the Mare Owner within the current year and/or the next year's breeding season, this contract is nontransferable.
9. The Stallion Owner agrees that if the Stallion or Mare dies or becomes unfit for service during the current breeding season prior to breeding the mare, then the stud fee and any deposit paid will be refunded. This contract shall then become null and void.
10. When two copies of this contract are signed by both parties, it will then be a binding contract on both parties, subject to the above terms and conditions.
11. For the purposes of this contract, all funds contained herein are Australian dollars.

Description of TB Mare Named \_\_\_\_\_

### DESCRIPTION OF MARE BRANDS/FREEZE MARK

If necessary brand site must be clipped or shaven in order to confirm registered brands. Failure to do so will result in the necessity of re-inspection.

Colour \_\_\_\_\_  
Head \_\_\_\_\_  
Neck \_\_\_\_\_  
Legs \_\_\_\_\_  
Body \_\_\_\_\_

The diagram and written description must agree and must be sufficiently detailed to ensure the positive identification of the animal in the future. White markings must be shown in red and the written description completed using black ink in block letters. If there are no markings, this fact must be stated in the written description.

All head and neck whorls should be marked (X) and described in detail. Other whorls should be similarly recorded in greys and in animals lacking sufficient other distinguishing marks. Acquired marks and other distinguishing marks eg prophet's thumb mark, wall eye etc should always be noted
